

## To Prepare for Energy Audit:

-->Please remember not to use your wood stove if you have one for 12 hours before the site visit.

-->Any attic access hatches need to be fully accessible so attics can be inspected. This includes room for a ladder for top attics.

-->All windows need to be in winter condition—closed and latched.

Thanks!

## Fuel Usage Worksheet

### RECORD FUEL USAGE BELOW

You can provide information on energy usage to help with the energy assessment

**Instructions:** For each type of heating fuel and electricity you use record usage for the most recent July to June period.

→ If you don't have your own records, contact your fuel dealer for oil and propane. Vermont Gas and electric utilities you can access on-line or contact by phone.

→ **Note:** If you get your fuel deliveries from the Energy Co-op, check here \_\_\_\_\_, and we can retrieve those records for you.

→ **WOOD:** For recording wood usage, please indicate the number of cords of wood used excluding fireplace
