

HVAC Service Technician / Apprentice

Pay: \$22–\$32 per hour, based on experience

Reports To: Service Manager

Looking to start or grow your career in the HVAC industry? We are seeking a motivated HVAC Service Technician / Apprentice to join our team. This position is ideal for apprentices, trade school graduates, or candidates with 1–3 years of experience. We provide hands-on training alongside experienced technicians with opportunities for advancement and certification growth.

Responsibilities

- Assist with installation, maintenance, and repair of oil boilers, furnaces, water heaters, oil tanks, natural gas systems, and cold-climate heat pumps
- Troubleshoot service issues including no heat and no hot water
- Perform cleanings, tune-ups, and tank pump-outs
- Complete service paperwork accurately and on time
- Communicate professionally with customers and team members
- Support emergency and after-hours service calls as needed
- Maintain a safe and professional work environment

Qualifications

- High school diploma or equivalent required
- Valid driver's license with clean driving record
- Strong mechanical aptitude and willingness to learn
- Ability to use hand and power tools
- HVAC, mechanical, or trade experience preferred but not required
- Apprentices and candidates with 1–3 years of experience are encouraged to apply

Physical Requirements

- Ability to lift 50+ pounds
- Comfortable working in basements, crawl spaces, ladders, and outdoor weather conditions
- Ability to stand, kneel, crawl, and climb for extended periods
